Certifications: Certified SAE 6 Practitioner, Microsoft Certified: Azure Fundamentals

Experience

BidOut September 2023 – Present
Project Management Assistant Houston, Texas

Chevron May 2023 – August 2023
Cloud and Infrastructure Intern Houston, Texas

- Built a full-stack webapp with Next.js and TailwindCSS/MantineUI to allow users to report major incidents with widespread impacts
- Assisted in conducting exploratory work to build an AI model with ServiceNow Incident and Knowledge Base articles
- Worked with a team of interns to create a Cloud and Infrastructure learning pathway for employees on an internal learning platform

Seatgull February 2022 – October 2022
Software Engineer Houston, Texas

- Used Rust's Actix framework to create a fast, asynchronous backend while providing a responsive front-end with React
- Designed and created a course scheduler connected to 60 universities with over 850,000 students through React.js
- Spearheaded Reddit marketing by creating posts on 20+ subreddits and reached out to 50+ influencers on Instagram

Leadership

The Ion August 2023 – Present
Ion Student Ambassador

CougarCS August 2021 – Present
President December 2022 - Present
Director of Information Security December 2021 - December 2021

- Supervised a team of 20 to compete against other universities in CTF competitions by using common pentesting tools
- Facilitated the creation of VM, Linux, and Password Cracking workshops to teach students about popular technologies
- Created 40+ interactive step-by-step writeups for CTF rooms on TryHackMe using Markdown

CodeRED Odyssey Hackathon June 2022 – November 2022
Marketing Officer

- Organized Houston's largest hackathon's 8th iteration – CodeRED Odyssey (MLH event) over a period of 5 months
- Marketed the event on a regular basis on and off campus, as well as on social media such as LinkedIn and Instagram
- Helped set up, organize, manage, and clean up over the entire 24-hour event

Projects

Recharge | TypeScript, React Native, JSX, Figma, Actix, MariaDB, Docker, AWS June 2022 – August 2022

- Created a full stack mobile app for IOS and Android to allow the UH community to find activities around campus
- Designed using Figma for UI/UX development to create designs for 10+ mobile app pages
- Utilized React Native with custom styling components for front-end development and Actix for back-end development
- Programmed a website using Vite and TailwindCSS, and hosted it on an Oracle Cloud VM with Nginx reverse proxy

Home Server | Docker, Python, Plex, Wireguard, Tailscale, Pi-Hole, etc. August 2021 – Present

- Installed Raspbian on a Raspberry Pi, set up SSH, and self-hosted with Plex Media Server, the Wireguard VPN client, the Nextcloud suite, and Pi-Hole using Docker containers
- Scripted a scheduler in Python using the Pandas and Datetime modules to integrate with a Google Sheets calendar and send push notifications based on server temperature and upcoming dates/times
- Utilized Portainer and Docker to organize and host 20+ containers organized into 3 stacks with 10 volumes in total
